# MISSION

---

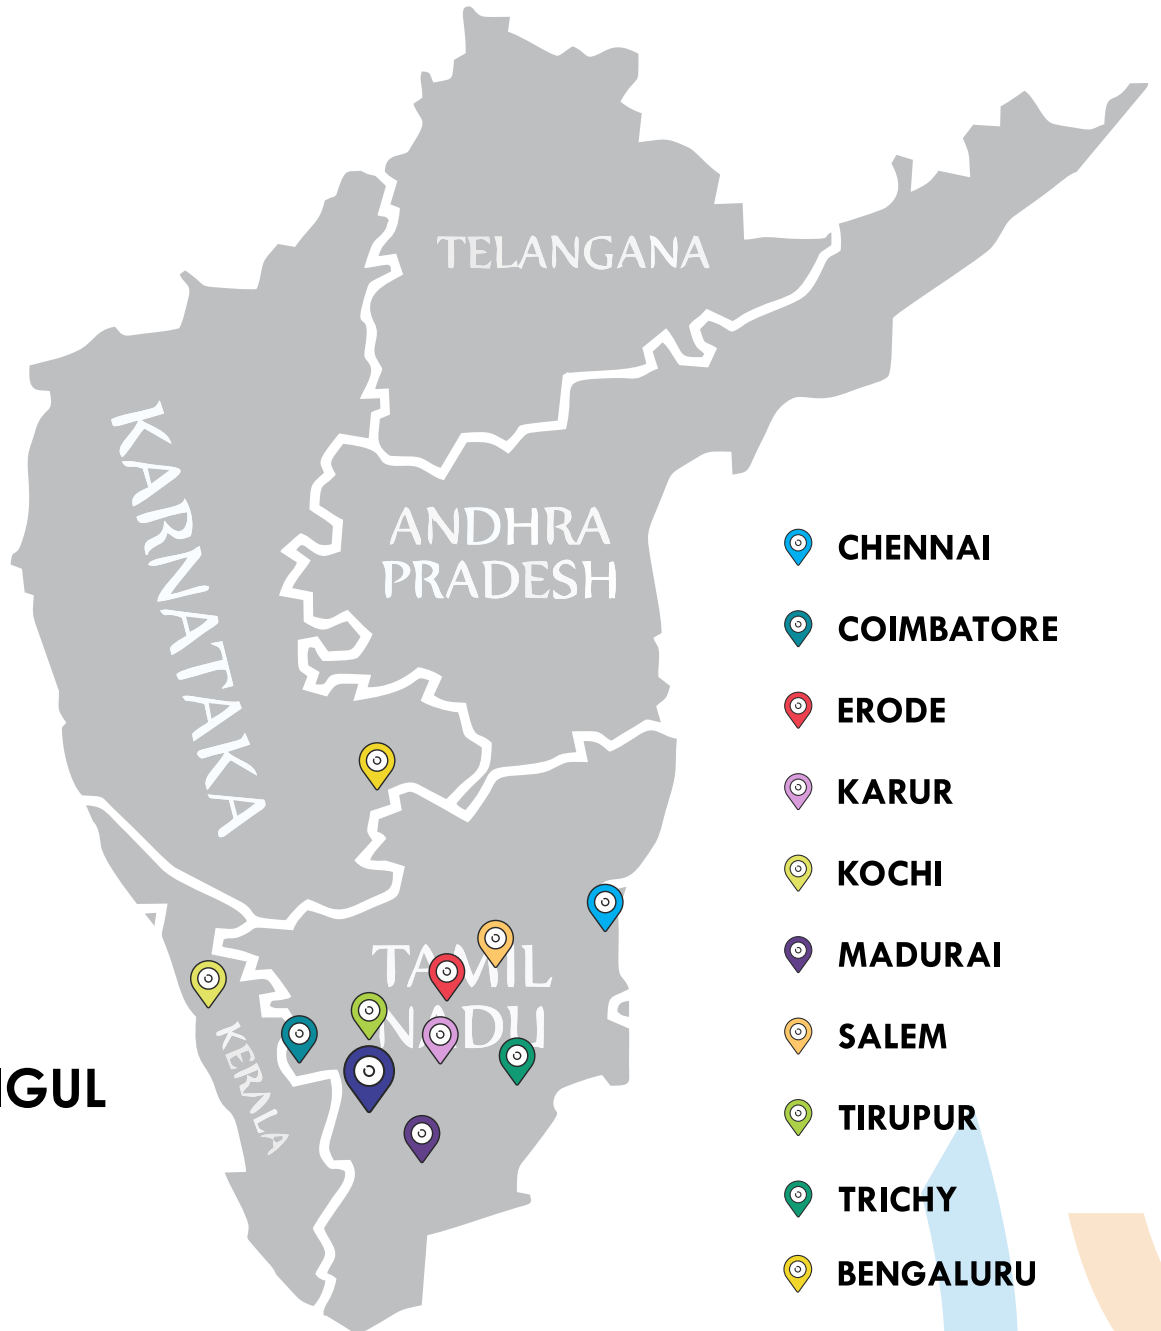

**“To nurture inquiring, knowledgeable and caring young people who are engaged citizens of the world”**

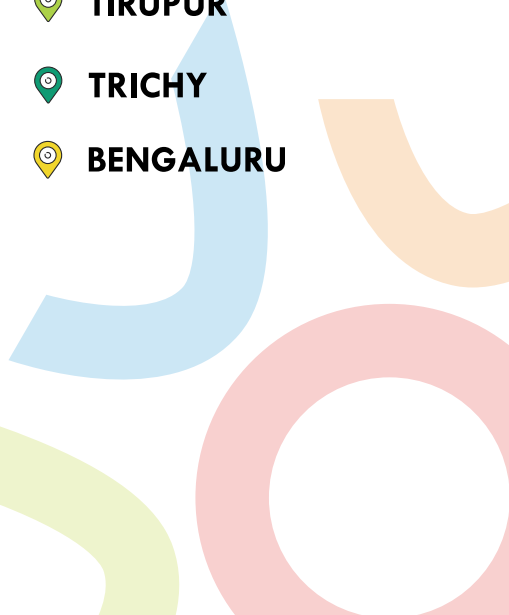

There is at present an intensely felt lacuna between education required/desired and the education available. In this fast changing world of information explosion, the focus of education needs to shift from knowledge accumulation to creation of meaning and relevance.

# SOUTH INDIA MODEL UNITED NATION - SIMUN

## Research. Refine. Reform.

With the vision to bring the leaders of tomorrow together, South Indian Model United Nations aspires to be the epitome of world class debate that sets the platform for young aspiring diplomats. SIMUN is determined to promote social progress and better standards of life in larger freedom, and is set to inspire intelligent and talented minds from across various regions in uniting our strength to maintain international peace and security. Since its inception in 2017, SIMUN has simulated world diplomacy, inspiring our delegates to become more aware, more educated and global citizens. With a diverse committee line-up SIMUN allows students to think critically, collaborate with others, propose constructive resolutions, and develop the diplomatic skills that are more important than ever.

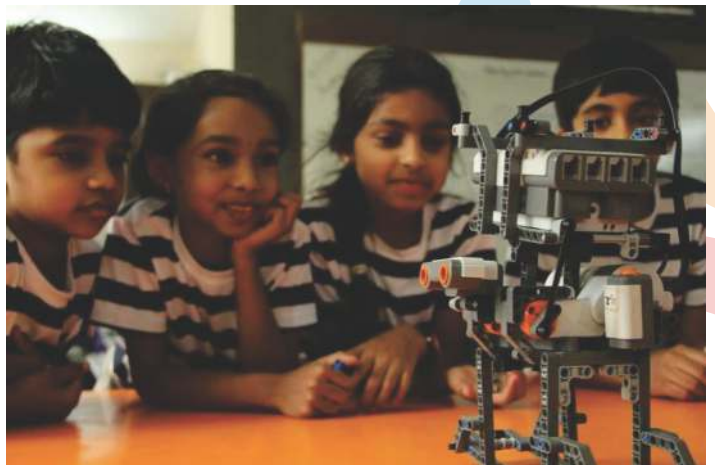

# ROBOTICS (STEM)

STEM is an acronym for Science, Technology, Engineering and Math. TIPS offers a unique curriculum that helps students 'connect the dots' between what they learn in their traditional math science classes and their 'hand-on' learning with robots. This learning model helps them to internalize the concepts and understand them more effectively.
